INDEX

PROLOGUE

EXECUTIVE SUMMARY

INTRODUCTION

1. Malaria in Peru and in the world
   1.1. General aspects
   1.2 Malaria in the world
   1.3 Malaria in Peru
      1.3.1 Historical evolution
      1.3.2 Current status
      1.3.3 Characteristics of the main malaria transmission areas in Peru
   1.4 Prevention and control strategies

2. Cost estimation in the health reform framework
   2.1 A global view of the health sector in the reform process
   2.2 The economic theory, costs and health economics
   2.3 The study of the economic costs of malaria and its implications in the health reform

3. Aspects considered in cost estimation
   3.1 Economic costs and effects of the health status
   3.2 Concepts of the economic costs
      3.2.1 Direct costs
      3.2.2 Indirect costs
      3.2.3 Other indirect costs produced by the effects on the behavior of economic agents

4. Methodology used in the economic costs estimation of malaria
   4.1 Methodological techniques and tools considered
      4.1.1 Calculation of the MOH direct institutional costs
      4.1.2 Costs of other institutions: ESSALUD, NGOs, and others
4.1.3 Direct and indirect costs borne by patients and their families p. 47
   a) Contents of the house survey p. 48
   b) Sampling for the house survey p. 49
   c) Application of the survey p. 52
   d) Value of time p. 53
   e) Value of life p. 55
   f) Value of suffering p. 55
4.1.4 Calculation of the costs by loss of tourism p. 56
4.2 Possible bias and deficiencies of the methodology used p. 56

5. The economic cost of malaria in Peru p. 59
5.1 The cost of malaria in Peru in 1998 p. 59
   5.1.1 The total cost of malaria in Peru p. 59
   5.1.2 The Ministry of Health costs p. 60
   5.1.3 Costs of other institutions p. 68
   5.1.4 Total costs for families in prevention p. 69
   5.1.5 Total cost for families for treatment p. 70
   5.1.6 Mortality costs p. 73
   5.1.7 Costs for loss of tourism p. 73
   5.1.8 The fiscal costs of malaria p. 74
   5.1.9 Malaria costs in regard to the GDP and by economic activity. p. 75
5.2 The cost of malaria for families p. 77

6. Final comments p. 83

BIBLIOGRAPHY P. 87

ANNEX 1
Socio-economic Profile of the areas in the study p. 93
